

Trumpet Warm Up No.1

Beginner

1. Long Notes: Play each note for as long as your air lasts. Try some on just the mouthpiece too.

2. Fingering / Slurred: Play it 2 or 3 times. Make it slow and smooth!

3. Fingering / Tongued: Now repeat exercise 2 but this time play it tongued. Keep the air the same!

4. Lip Slurs Down: Not too fast and not too loud. Play the same shape on all the different fingerings.

Don't forget that Air & Buzz!

5. Lip Sluts Up: Try to play in time and use faster air for the higher notes.

6. Tonguing: Keep the air the same for the long and short notes. Don't forget to breathe!
